Program Learning Goals

Note: these are required for all undergraduate degree programs and majors now, and will be required for all graduate and professional degree programs in 2012. Nonetheless, all programs are encouraged to complete these now.

Program Learning Goals

• Gain a broad-based interdisciplinary understanding of field of gerontology including biological, social, psychological, and public factors in aging
• Develop understanding of impact of aging population on the United States and internationally
• Pursue a pathway to prepare for profession serving older adults

Assessment

Assessment plan includes student learning goals, how those goals are evaluated, and how the information collected is used to improve student learning. An assessment plan is required for undergraduate majors and degrees. Graduate and professional degree programs are encouraged to complete this now, but will not be required to do so until 2012.

Is this a degree program (undergraduate, graduate, or professional) or major proposal? Yes

Does the degree program or major have an assessment plan on file with the university Office of Academic Affairs? Yes

Summarize how the program's current quarter-based assessment practices will be modified, if necessary, to fit the semester calendar.

The Interdisciplinary Aging Minor was developed by an interdisciplinary faculty committee in 2006 in the College of Arts and Sciences. It has been coordinated and administered by a faculty member in the Department of Anthropology since 2007. To date about 40 students from disciplines across the campus have graduated with the minor in aging.

These students come from social work, psychology, health sciences, biology, human development and family sciences, health administration, public health, anthropology, and education and human ecology. The program has been evaluated annually by a faculty advisory committee from the School of Allied Medical Professions and Psychology.

The proposed changes include moving the administration of the minor to the School of Allied Medical Professions at the College of Arts and Sciences. This will...
allow more students to learn about the minor and to encourage more students to pursue the minor as part of their undergraduate studies. The goal is to attract students beyond Arts and Sciences in such fields as communications, business, and the social and behavioral sciences where a broad knowledge of aging will be important as the general population ages in the coming decades.

The Aging Minor required 20 hours for completion under the quarter system. This proposal suggests 14 hours (as outlined above) would serve the needs of students under the semester system.

This minor prepares our undergraduate students to pursue graduate opportunities in fields with a gerontology focus, such as medicine, allied medical professions, nursing, pharmacy, psychology, social work, consumer sciences, anthropology, and sociology. The minor also positions students well to enter the workforce engaged with the elderly. It is expected that there will be an increasing need for individuals with this more specialized knowledge base in the workforce.

Program Specializations/Sub-Plans

If you do not specify a program specialization/sub-plan it will be assumed you are submitting this program for all program specializations/sub-plans.

Pre-Major

Does this Program have a Pre-Major? No

To: The Council on Academic Affairs

Subject: Aging Minor

Date: July 7, 2011

On June 29, 2011, I met with Assistant Provost Randy Smith and faculty in the College of Arts and Sciences to discuss the future of the Aging Minor. Because less than half of the students enrolled in the aging minor are also enrolled in Arts and Sciences, they agreed to transfer administrative responsibility for the minor to the School of Allied Medical Professions during summer 2011. Meanwhile, Dr. Doug Crews, the current coordinator of the minor, Dr. Meg Teaford from SAMP, and Dr. Charles Emery from Psychology have been working on semester conversion for the minor. They have reviewed the existing courses under quarters, identified the new semester courses that are similar, and prepared a plan for the transition. These are identified in the attached semester conversion template.

I have reviewed the proposed conversion document and recommend its approval by CAA. We currently have 45 students enrolled in Allied Med 665, the required introductory class for the minor. This illustrates the growing interest in the field of aging and the desire of undergraduate students from across the campus for this interdisciplinary field of study. With the population of adults age 60 and older rapidly growing in the United States and many developed and developing countries, this is an important area of study that will impact professionals in many different fields as well as the general public.

Thank you for your assistance. Please contact me if you have any questions.

Sincerely,

Deborah S. Larsen, PhD
Director, School of Allied Medical Professions
Associate Dean, College of Medicine
The Ohio State University
614-292-5645
Semester Conversion Template: Programs

PROGRAM Template (for each PROGRAM being converted)

I. GENERAL PROGRAM INFORMATION

1. Name of the Program (proposed and current names, if different) Aging Minor

2. Degree title (proposed and current names, if different) N/A

3. Academic unit(s) responsible for administrating the degree program: The School of Allied Medical Professions

4. Semester Conversion Designation (Note: To aid in the approval process, please self-select which of the following seems more applicable based on your own understanding of what was done):

   a. Converted with minimal changes to program goals and/or curricular requirements (e.g., name changes, changes in electives and/or prerequisites, minimal changes in overall structure of program, minimal or no changes in program goals or content)

II. PROGRAM REQUIREMENTS*

5. List program learning goals** (i.e., knowledge, skills, and attitudes / perspectives) to be attained by students at time of completion of the program. (Notes: These should be broad goals, not detailed ones. Depending on one's field or academic discipline, goals are also known by other terms including objectives, outcomes, and competencies. Recommend listing 3 to 10 goals.)

   - Gain a broad-based interdisciplinary understanding of field of gerontology including biological, social, psychological, and public factors in aging
   - Develop understanding of impact of aging population on the United States and internationally
   - Pursue a pathway to prepare for profession serving older adults

6. List the semester courses (department, title, credit hours) which constitute the requirements and other components of the program. Append a current (quarters-based) and new (semesters-based) curriculum advising sheet for the program, formatted to meet unit's standards. (see attached)

   Required Course (3 Credits)
   AM 4600 Health after Mid-Life, Faculty: Margaret H. Teaford, PhD, 3 semester credits
Core Courses (6-7 credits) Students are to select two of the following three core courses:

Course #1: HDFS 5430 Adult Development and Aging, Faculty: Eugene Folden, PhD, 3 semester credits

Course #2: Anthropology 5645 Biology of Senescence, Faculty: Douglas Crews, PhD, 4 semester credits

Course #3: Psychology 3552 Psychology of Adult Years, Faculty: Charles Emery, PhD., 3 semester credits.

Elective Courses (Minimum of 4-5 Credits) - TOTAL CREDITS: 14

All students will be required to take elective courses equivalent to a minimum of 4-5 semester credits from the Master List of Courses, (see attached list).

7. Provide a curriculum map** that shows how, and at what level (e.g., beginning, intermediate, advanced), the program's courses facilitate students' attainment of program learning goals. A table format is recommended (see example below).

<table>
<thead>
<tr>

**Curriculum map**
8. Rationale for proposed program changes (either significant or minimal). Describe how these changes will benefit students and enhance program quality. Include date of last significant program revision. [Word limit: 750]

The Interdisciplinary Aging Minor was developed by an interdisciplinary faculty committee in 2006 in the College of Arts and Sciences. It has been coordinated and administered by a faculty member in the Department of Anthropology since 2007. To date about 40 students from disciplines across the campus have graduated with the minor in aging.

These students come from social work, psychology, health sciences, biology, human development and family sciences, health administration, public health, anthropology, and education and human ecology. The program has been evaluated annually by a faculty advisory committee from the School of Allied Medical Professions and Psychology.

The proposed changes include moving the administration of the minor to the School of Allied Medical Professions at the College of Arts and Sciences. This will allow more students to learn about the minor and to encourage more students to pursue the minor as part of their undergraduate studies. The goal is to attract students beyond Arts and Sciences in such fields as communications, business, and the social and behavioral sciences where a broad knowledge of aging will be important as the general population ages in the coming decades.

The Aging Minor required 20 hours for completion under the quarter system. This proposal suggests 14 hours (as outlined above) would serve the needs of students under the semester system.

This minor prepares our undergraduate students to pursue graduate opportunities in fields with a gerontology focus, such as medicine, allied medical professions, nursing, pharmacy, psychology, social work, consumer sciences, anthropology, and sociology. The minor also positions students well to enter the work force in jobs engaged with the elderly. It is expected that there will be an increasing need for individuals with this more specialized knowledge base in the workforce.

9. Council on Academic Affairs reviewers' aid and credit hour expansion check. Provide a table which includes the following information:

<table>
<thead>
<tr>
<th>Program requirements:</th>
<th>A.) Number of credit hours in current program</th>
<th>B.) Calculated result for 2/3rds of current quarter credit hours</th>
<th>C.) Number of credit hours required for new program</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>(Quarter credit hours)</td>
<td>(Multiply the value in column A by 0.667 and round to the nearest tenth of a credit hour)</td>
<td>(Semester credit hours)</td>
</tr>
<tr>
<td>Prerequisite courses</td>
<td>0</td>
<td>0</td>
<td>0</td>
</tr>
</tbody>
</table>
### Required for Admission to Program which are not Counted Toward Total Hours

<td>0</td>
<td>0</td>
<td>0</td>
</tr>
<tr>
<td>Free Electives</td>
<td>10-11</td>
<td>6-7</td>
<td>4-5</td>
</tr>
<tr>
<td>Total required for completion of program</td>
<td>20</td>
<td>14</td>
<td>14</td>
</tr>
</tbody>
</table>

10. Credit hour expansion rationale. If there is a difference of more than 3 semester credit hours between the values listed in columns B and C for any row in the table above, provide a rationale for that difference. [Word limit: 500]

There is no change in the equivalent credit hours.

### III. ASSESSMENT CONVERSION*

11. Describe how the program's current quarter-based assessment practices** will be modified, if necessary, to fit the semester calendar. For example if there are embedded assessments used in selected courses, a modified assessment plan may identify the new semester courses which will include testing student attainment of program goals. If an undergraduate degree program or major does not have a plan on file with the Office of Academic Affairs, provide a list of the following:

- a. The means the program uses / will use to evaluate how well students are attaining program goals. Please refer to the Appendix of the *Quarter to Semester Conversion Guide to Curriculum* for some examples (p.4 of draft template).
- b. How the program uses / will use the evaluation data listed above to periodically make evidence-based improvements to the program. Please refer to the Appendix of the *Quarter to Semester Conversion Guide to Curriculum* for examples (p.5 of draft template).

#### Goal 1:
Students will gain a broad-based interdisciplinary understanding of field of gerontology including biological, social, psychological, and public policy factors in aging

| Methods: Means/Methods | Pre and post-test testing, specific embedded test questions on exams, written assignments |
Criteria | Over five year period of time, 90% of the students who enroll in the minor will successfully complete it and will demonstrate from their examinations that they have gained this interdisciplinary understanding of gerontology.
---|---
Planned Use | Faculty from the courses will meet annually to review content to be sure that there is not overlap or gaps in the materials presented; there will also be discussions of teaching techniques.
Implementation Schedule | To be Implemented in 2011-12

**Goal 2:** Students will develop an understanding of impact of aging population on the United States and internationally

<table>
<thead>
<tr>
<th>Methods: Means/Methods</th>
<th>Pre and post-test testing, specific embedded test questions on exams, written assignments</th>
</tr>
</thead>
<tbody>
<tr>
<td>Criteria</td>
<td>Program will successfully complete a program review done by other Ohio gerontology faculty through the Ohio Association of Gerontology and Education. This will be based on national standards set forth by the Association for Gerontology in Higher Education.</td>
</tr>
<tr>
<td>Planned Use</td>
<td>Faculty will review semester courses and prepare document for OAGE review.</td>
</tr>
<tr>
<td>Implementation Schedule</td>
<td>To be done after first year of semesters in 2013-14.</td>
</tr>
</tbody>
</table>

**Goal 3:** Students will pursue a pathway to prepare for profession serving older adults

<table>
<thead>
<tr>
<th>Methods: Means/Methods</th>
<th>Alumni surveys and student interviews and focus groups; interviews with employers in the field</th>
</tr>
</thead>
<tbody>
<tr>
<td>Criteria</td>
<td>Over five year period of time, 90% of students who complete the program will have gained employment in the field of aging or pursued graduate training with a goal to working with older adults. A survey of potential employers will identify areas of strength and weakness in the program in terms of employee preparation.</td>
</tr>
<tr>
<td>Planned Use</td>
<td>To be used to revise existing program and to identify new course areas.</td>
</tr>
<tr>
<td>Implementation Schedule</td>
<td>To be Implemented in 2011-12.</td>
</tr>
</tbody>
</table>

**IV. TRANSITION POLICY**

12. Transition Policy:
All students enrolled in the Aging Minor will be guided throughout their programs to assure graduation occurs without penalty due to the semester change. Those who begin the program under quarters, but finish the program under the semester system will still take the 1 required course, the two required core courses, and 1 to 2 electives.
Proposed Advising Sheet for Aging Minor  
The School of Allied Medical Professions  
July 2011

Introduction: According to the US Administration on Aging, the older population—persons 65 years or older—numbered 39.6 million in 2009 (the latest year for which data is available). They represented 12.9% of the U.S. population, about one in every eight Americans. By 2030, there will be about 72.1 million older persons, more than twice their number in 2000. The population 65+ is expected to grow to be 19% of the population by 2030. In Ohio, 1.5 million people were age 65 and over in 2010, and Ohio has the 7th largest older population in the nation.

This minor prepares our undergraduate students to pursue graduate opportunities in fields with a gerontology focus, such as medicine, allied medical professions, nursing, pharmacy, psychology, social work, consumer sciences, anthropology, and sociology. The minor also positions students well to enter the work force in jobs engaged with the elderly. It is expected that there will be an increasing need for individuals with this more specialized knowledge base in the workforce.

Total number of credits: Minimum of 14 semester credits

Required Introductory Course: AM 4600 Health after Mid-Life, 3 semester credits

Core Courses: Students are to select two of the following three core courses (6-7 semester credits):

- Course # 1: HDFS 5430 Adult Development and Aging, 3 semester credits
- Course # 2: Anthropology 5645 Biology of Senescence, 4 semester credits
- Course #3: Psychology 3552 Psychology of Adult Years, 3 semester credits.

Electives: (minimum of 4 semester credits)

</tr>
</tbody>
</table>

Enrollment: Students should enroll before their junior year.

Further information and to enroll, contact Margaret H. Teaford, PhD, 406 Atwell Hall, 292-8152 or teaford.1@osu.edu
The Aging minor requires the completion of 20 hours. Students must successfully complete a required foundational course and two of three core courses. The remaining hours may be taken from a range of elective courses.

### Required Foundational Course
Allied Medicine 665: Understanding the Aging Process (3)

### Core Courses
Students must complete 2 courses.

**Biological Aspects:**
- Anthropology 640.05: Biology of Senescence (5)

**Psychological Aspects:**
- Psychology 552: Psychology of Adult Years (3)

**Sociological Aspects:**
- HDFS 670.01: Adult Development & Aging (3)

### Electives
Students must complete additional electives from the courses listed below to total a minimum of 20 hours.

- Allied Med 601: Death, Loss, and Grief fro Multiple Perspectives (4)
- Allied Med 667: Aging and Public Policy (3)
- Allied Med 668: Prevention & Wellness in Aging (3)
- Allied Med 693: Pathophysiology of Aging
- Allied Med 720: Aging and Design (3) *cross listed with Textiles & Clothing 720*
- Allied Med 721: Practicum in Home Modifications and Universal Design (3)
- *Anthro 640.02: Growth, Development, & Senescence (5)*
- *Anthro 640.05: Biology of Senescence (5)*
- Fam Res Mgt 561: Retirement Planning and Employee Benefits (3)
- *HDFS 364: Life Span Human Development (5)*
- HDFS 560: Advanced Family Development (3)
- HDFS 670.01: Adult Development & Aging (3)
- Nursing 430: Nursing Care of Older Adults (8) *student may count a maximum of 5 credits toward the minor*
- *Psych 340: Introduction to Life Span Developmental Psychology (5)*
- *Psych 552: Psychology of Adult Years (3)*
- Psych 597.03: Aging in the Modern World: A Health Psychology Perspective (5)
- Social Work 695.14: Aging (3)
- Social Work 695.24: Caregiving Across the Life Span: Contemporary Issues, Program and Policies (3)
- Social Work 695.25: Women and Aging: International Perspectives (3)
- Sociology 629: Sociology of Health: Mental and Physical Dimensions (5)
- Sociology 630: Medical Sociology (5)
- Sp & Hr Sc 605: Multicultural Aspects of Communication and Its Disorders (5)

*Students may count only one of the following courses due to significant content overlap: Anthro 640.02, HDFS 364, Psych 340.*

### Arts and Sciences minor program guidelines
The following guidelines govern this minor.

**Required for graduation** No

**Credit hours required** A minimum of 20

**Transfer credit hours allowed** A maximum of 10

**Overlap with the GEC** Permitted

**Overlap with the major** Not allowed and
- The minor must be in a different subject than the major.
- The same courses cannot count on the minor and on the major.

**Overlap between minors** Each minor completed must contain 20 unique hours.

**Grades required**
- Minimum C- for a course to be listed on the minor.
- Minimum 2.00 cumulative point-hour ratio required for the minor.
- Course work graded Pass/Non-Pass cannot count on the minor.

**Approval required** The minor program description sheet indicates if the minor course work must be approved by:
- The academic unit offering the minor, or
- A college/school counselor.

**Filing the minor program form** The minor program form must be filed at least by the time the graduation application is submitted to a college/school counselor.

**Changing the minor** Once the minor program is filed in the college office, any changes must be approved by:
- The academic unit offering the minor, or
- A college/school counselor.
September 2, 2011

To: W. Randy Smith, Vice Provost, Office of Academic Affairs  
From: Terry L. Gustafson, Special Assistant to the Executive Dean for Semester Conversion  
Re: Program Proposals from Arts and Sciences

Arts and Sciences is pleased to submit the following programs to the Office of Academic Affairs for conversion from quarters to semesters. The vote for approval of the programs at the full CCI was unanimous.

<table>

**College of Arts and Sciences Transition Policy:** The College of Arts and Sciences is committed to the principles outlined in the university’s Pledge to Undergraduate Students. Each unit has a plan on how best to assist its majors and minors through the transition. And the Arts and Sciences Academic Advising Services will advise students on how to transition their GE program. Dual advising is the existing process used in Arts and Sciences and will continue under semesters.

**Additional Notes on the Submitted Program:**

Note that the Aging Minor, the Capital Program, the Legal Foundations of Society Minor, and the Survey Research Minor are not new programs. The program codes were not in curriculum.osu.edu, so the programs were entered as new.

The following comments are recommended by CCI for CAA to consider:

**Aging Minor:**
- On the PACER table, numbers in Column C should probably be 14, 3, 7, 7, 11.
- The third goal is ungrammatical. It appears both on the PACER form and on pg 4 of the PDF.
• On the PACER form, the question as to whether this is a degree program should be marked No.
• In the comments under "Assessment practices" (bottom of Page 1 & top of Page 2 of the PACER form) and "Rationale for proposed program changes", suggestion to point out that communications and the social and behavioral sciences are within ASC, so that students attracted from these programs are coming from within ASC.
• Pg 3 of 5, section 8, "Rationale": In the first sentence of the 3rd paragraph, "at" should be replaced by "from," to read, "moving ... from the College of Arts and Sciences."
• In the Transition Policy -- a student has to complete at least 2 elective courses in the quarter-version of the program, and will have to complete at least 2 elective courses in the semester-version. Why does the transition policy present the option of the student completing 1 or 2 electives? Why not require completion of 2 elective courses, in any combination of quarter and semester versions?
• On the semester advising sheet, it might be clearer, instead of "Electives: (minimum of 4 semester credits)," to say "Electives (4-5 semester credits)." This will alert students that the statement that the major requires a minimum of 14 hours takes precedence.
• Are there significant prerequisites for any of the required core courses or the electives, other than the single required course? If so, a general note should be added on the advising sheet, as we've requested for other minors.

The Capital Program:
• The Capital Program is officially a Course of Study, not a minor. The program is a collaboration between the Colleges of Business and Arts and Sciences. A letter of support from the College of Business is attached.

Legal Foundations of Society Minor:
• A student who is already underway in the minor might have chosen quarter courses that do not fulfill the 6 hours (or more) at 3000-level-plus needed under semesters; CCI assumes advisors will use their discretion in such cases.

Survey Research Minor:
• There are two "x"’s in the Faculty Advisor's letter should perhaps be replaced with the correct dates.
