Not Admitted to the University

A NOTE ON REGIONAL CAMPUS STUDENTS:
Regional Campus Students can not be considered for DESIGN FOUNDATIONS due to the unavailability of DESIGN courses on the regional campuses. We work with regional campus advising to get design interested students to Columbus Campus for following AU Term.

These 80 students enroll 18 hours of DESIGN 2000-level courses during AU and SP terms. These courses lead to the portfolio review for admission to the BSD programs in Design.

These students are advised to select a new major.
Design Advising communicates options depending on interests and academic history.

These students are advised to select a new major and have at this point earned a specific version of the DESIGN MINOR.

These students continue into the BSD program.
